

Supply Chain Management Policy

PTTEP undertakes an integrated supply chain management in order to achieve operational excellence and deliver the best benefits to all stakeholders, while adhering to the sustainability development scheme.

PTTEP conforms to the supply chain management policy as follows:

- Complies with the applicable laws of the countries in which PTTEP operates including joint operating agreements, regulations, stipulations, and related procedures according to the PTTEP corporate management standard
- Conducts business with fair treatment for stakeholders and act against all kinds of corruption by adhering to the principles of good corporate governance and business ethics, human rights, and social responsibility
- Values contractors as business partner on the basis of fair return while obtaining best benefit to the company, encourages contractors to adhere to PTTEP's business principles including vendor sustainable code of conduct, and promotes joint capability development
- Manages supply chain effectively under the policy of Safety, Security, Health and Environment, and effective Risk Management (Governance, Risk Management, and Compliance)
- Conducts procurement based on worthiness, transparency, efficiency and effectiveness, and auditability as well as supports local content procurement in order to promote domestic economy and generate income to local community
- Promotes, seeks, and applies digital technologies and innovations for continuous improvement of supply chain management and instantaneously support business transformation
- Seeks for opportunities to synergize supply chain operations within the PTTEP and affiliates, PTT group of companies and other companies within the industry

The Management and staffs in all levels have the obligation to promote, support, and strictly comply with the policy.

Mr. Phongsthorn Thavisin
Chief Executive Officer
